# 🍇 Hndson's Bay Company. 🍇

# A Storm in a Washtub)

AVE you ever seen a storm at sea? You get the effect in miniature when you watch the pow-erful, strongly built Coffield Gyra-tor Electric Washer in action.

What you see is the action of water when churned into foaming fury by the Coffield Gyrator.

The Coffield tub has a bowl-shap-ed bottom. The Coffield Gyrator, with the offset blades, set in the bowl-shaped bottom distinguishes the Coffield from all other electric

washers.

In the Coffield Gyrator Washer, it is water agitation that does the work. There is no strain on the clothes. The currents keep them clear of the Gyrator blades and force the soap suds through the woven or knitted meshes of the fact that the company of the company of

#### Edmonton Bulletin power at the rate now charged if the power franchise is granted.

"Edmonton's Own Newspaper" Founded in 1880 by Hon. Frank Oliver

#### CHARLES E. CAMPBELL

Hougher Corporation, Limited, Royal Colonial chambers, 20 Craven Bireet. The Audit Bureau of Circulation audits the irculation of The Edmonton Bulletin.

A general provincial election is being held in British Columbia. A prominent plank in the platform on which the McLease and the platform on which the McLease and the platform on which the McLease and the platform on the pl

development sufficient to offset the deficits.

The P. G. E. was projected from Vancouver to Frince George. In point of fact
in neither begins at the one place nor ends
at the other. There is apparently little
at the other. There is apparently interthe only opportunity to bring the enterprise to completion, secure the advantages
of the development it may facilitate, and
free the tax-payers from heavy losses for
more than the secure that the security of the
Premier Brownlee apparently sees in
those negotiations a possibility that either
the National Railways or the two transcontinentals will be in the market shortly
to buy the E. D. & B. C. at a substantially
aga, and rejected. Speaking at Kitscoty
the other day, he placed a price of nineteen million dollars on the E. D. & B. C.
lines. The offer made—and refused—
was approximately seventeen millions and
a hait.

The difference is not large, in terms of railway finance. Should the National acquire the P. G. E., it would be very much to the advantage of the system to control also the E. D. & B. C. Should the P. G. E. negotiations fall, control of the E. D. & E. C. would be scarcely less valuable to the National system, and at the rate at which traffice and the state of the National system, and at the rate at which traffice and million and a half dollars in the purchase price should not block a sale.

#### THE MID-WEST PROPOSAL

rem to expect.

Pending legal and technical interpretation of the contract, the general scheme, it is a specific property of the contract, the general scheme, it may be stated, books like a fair business that the property of the contract of the contract of the contract of the scheme, it is the property of the contract of the scheme pany shall buy out the city's generating and distribution system, and undertake to supply electric energy for a period of 20 years. The rates to be charged are set forth. The conditions under which a charge in rates may be sounder as a scheme for the scheme property of the scheme for th

wears. The rates to be charged are set forth. The conditions under which a change in rates may be sought are stated. The price to be paid is definitely named. The company undertakes to pass not the through a change supply of electric current becoming available.

One point on which there has been some minunderstanding seems to be changed the control of the control

addition to the minion and a hast search as the purchase price.

The company has not seen fit to include a proposal to take over the street railway system, and has as yet made no offer for that utility. It is, however, stated that the street railway will be supplied

### Interesting Subjects at McDougall Church 'The Reformation'

What Is Wrong with

the Churches? Did the Reformation close with the work of Luther, Calvin, Knox and their contemporaries or is it still going on?

If it is NOT still in progress, why is it not— What stopped it?

If it IS still in progress, why are so many de-nominations losing so many members; in brief, WHAT IS WRONG WITH THE CHURCHES?

In this lecture Evange-list White will give a brief, courteous, but plain review of the reli-gious world and give the Bible interpretation of the present-day condi-tions.

At Home Build At Home

# HOME OWNERS' and BUILDERS' PAGE

"Therefore, when we build let us think that we build forever. Let it not be for present delight nor for present use alone Let it be such work as our descendants will thank us for and let us think as we lay stone on stone that a time is to comwhen those stones will be held sacred because our hands have touched them and that men will say as they look upon the labor and the wrought substance of them: 'See! this our fathers did for us.'"—JOHN RUSKIN.

FOR YOU AND YOURS-A HOME -

## "CARLYLE CONVENIENCE"

N spite of its sizable dimensions. "The Carlyle" has a renuinely cozy look about it because of its curled green, its pointed gables and the squat little pillars on its en

A little upstairs balcony outside the sewing room and an arched decoration over the entrance also help break up the bleak look of broad spaces.

The interior of "The Carlyle" is as uncor its outside appearance and enjuly as charming. Here we see the long living room idea worked out to comfortable advantage with the wide and deep fireplace along one side and windows at the end as well as flanking the front side.

A variety of cabinets for china, edibles and pots and cans as well as a built-in ironing board and other conveni-nt features characterize the large kitchen.

ent features characterize the large kitchen.

The neat sewing room is a welcome adjunct and seven closets to four rooms is as generous a ratio as the most hopeful home-maker can wish for. A feature that would delight the interior decorator is the different sizes and spacings of the bed rooms. One has windows along its side, another the length, and still a third enjoys four windows in a row, which should give cause for some unusual plan of furnishing it. The price of "The Carlyle" runs from \$7500 to \$10.000.

#### The Used-Car Graveyard

is full of cars that die premature is full of cars that die premature deaths—due to negleted or faulty lubrication. From the day vour car is broken in to the day vour car is broken in to the due it is broken down, your motor's fate is guided by a thin film of oil which, in action, covers the cylinder walls and bearings of your engine, acting as a protective wall between the whirling flying metal surfaces.

While that film remains un-broken the twin enemies, heat and friction, have no power that harm your motor. But the minute the film breaks heat at-tacks unguarded spots and fric-tion takes its toll. Your motor becomes a prey to damage. It is headed for the repair shop—

ultimately to the graveyard of used cars.

used cars.

Match the new improved Veedol oils on performance against the oil you now use. Let this super heat-resisting oil give your motor the extra protection it needs. Veedol—the "fighting-est" oil that ever tamed heatmens added motor protection, longer mileage and greater economy. It has been reformulated to lubricate the new high-speed, only motors safely and correctly, and is a better oil for any motor. Have your crank-case filled with the new Veedol and let this heat-resisting oil give your motor the extra protection it requires.

Sold wherever the familiar orange and black Veedol sign is displayed.
